## Employment History

### Freelance front-end developer at Frontsight, Rijen, Noord-Brabant

February 2022 — Present

Self-employed. Carefully crafting modern web applications (from a freelance developer role). Oriented on both traditional web applications as well as web3 apps (dApps).

### Front-end Architect at Bearingpoint Caribbean, Curaçao / Rotterdam

February 2019 — February 2022

Coordinating every operational aspect within the front-end department and the development of modern web solutions based on React / Redux.

### Front-end Architect at E-sites Caribbean, Willemstad, Curaçao

January 2015 — February 2019

Responsible for both front-end development / architecture as well as code reviews, performance optimisation, standardisation, open-source projects and workshops.

I have worked for Caribbean-based clients like InselAir, Kooyman, Krasnapolsky, Gobièrnu di Kòrsou, Douane Curaçao, Torarica Group of Hotels, Kuldipsingh Group, Kirpalani.

### Scrum Master at E-sites, Breda

June 2006 — January 2013

As Scrum Master I am responsible for the Scrum process, making sure it's used correctly and maximizing it's benefit's.

### Senior Front-end Developer at E-sites, Breda

June 2006 — January 2016

Leading the E-sites front-end department. Responsible for front-end development / architecture, code reviews, optimisation, standardisation, open-source projects, exploring new web techniques, workshops and more.

I have worked for clients like Continental, NOC-NSF, Timex, Opel, Ricoh, Sport1, Conrad, TUI, Stimorol, Unilever, Mascotte and Janssen-Cilag.

## Founder and Web developer at Devion Internet, Breda

December 2007 — December 2008

Self-employed. Small internet agency, building websites and e-mail marketing campaigns for small and medium-sized enterprises.

Repealed due to my graduation program at that time.

## Allround Web developer at Additional-Value, Breda

September 2004 — September 2005

Focused on basic web development activities for small businesses.

## Junior Web Developer at Teamforce Websolutions

August 2002 — August 2003

Throughout the internship period my main activities were:

- Maintenance: maintain the Content Management System for several customers
- Basic web development: HTML/CSS modifications, create/adjust Flash elements, small ASP changes within several Team Force webapplications
- Documentation: Document internal processes

## Hobbies

Spending quality time with my family and friends, watching movies / TV series, sports (soccer, running), cryptocurrencies (both investing as well as building stuff).

## 🎓 Education

### Bachelor of Information and Communication Technology, Rotterdam University of Applied Sciences, Rotterdam

January 2005 — January 2008

I skipped my first year and as well the internship period due to my previous study as Application Developer at the Baronie College. The following 2 years I worked as junior web developer at E-sites during a so called working/learning process. In my last year I have written a thesis about web standards called “web development in balance” which reflects my personal way of thinking about standards like HTML/CSS, the importance of semantics in this matter and how to use these technologies in a proper way. Activities and Societies: Web development, Project management, Marketing & Sales, Concept & Design, (2D/3D) DTP, Usability, Accessibility, Audio/Video editing

### ROC Baronie College, Breda

January 2001 — January 2004

Started as System Engineer in the first two years, which were mainly based on basic IT activities. In the third year I decided to choose Application Developer as specialism and focus myself on web based programming languages. After a half-year internship at a small Internet company where I could practice all my skills I graduated flawlessly and was ready for a new challenge. Achieved certificates: CCNA 1 + 2, DAM (Hardware/Software/Networking), European Computer Driving License (ECDL) Activities and Societies: System engineering, IT management, project management, networking (Cisco), application development (Java / PHP), UML.

## 🎓 Courses

## Ibuildings customised PHP training, Ibuildings

February 2009 — February 2009
